

BEYOND FOLIAR

DESCRIPTION

Beyond Foliar is a complex blend of organic chelated micronutrients and cytokinin plant extract within a balanced, highly available, rapidly absorbed solution of Nitrogen, Phosphorous and Potassium.

- **3-10-15 (NPK)** is the premium fruit filling blend for larger, better quality fruit with improved flavor, colour, disease resistance and increased sugar levels.
- **11-6-9 (NPK)** is a balanced NPK base that promotes early vigor of fruit trees and field crops. 11-6-9 improves quality and colour while increasing size.
- **18-2-4 (NPK)** actively promotes early growth and meets the demand later in the season of crops with high nitrogen requirements.

PRODUCT FEATURES

- The ingredients of Beyond Foliar are of the highest purity and quality.
- The phosphate used in Beyond Foliar is manufactured from 100% orthophosphoric acid, a pure form of phosphate that is 98% available to the plant and the nitrogen is derived from a very low biuret source.
- Beyond Foliar has very fast absorption rate into the plant, with up to 80% being absorbed within one hour of spraying under normal conditions.
- The naturally chelated micronutrients and NPK found in Beyond Foliar are rapidly absorbed into the plant and with the assistance of the plant extract, readily translocated throughout the plant to where it is most needed.

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis.

To improve chemical efficiency and compatibility add AgroBest's Agro Chelate at 1:1000 to the tank first.

Beyond Foliar may be foliar applied via boomspray, aerial or sprinkler, ensure sufficient water to cover leaves and fruit. Beyond Foliar can also be applied with an irrigation system via trickle, dripper or mini sprinkler.

Use higher rates for ground and irrigation applications. Rates can vary depending on crop, soil type, nutrient requirements and other factors.

APPLICATION RATE

USE	PRODUCT	APPLICATION
All Crops	5-10 L/Ha	Apply every 3 to 4 weeks by foliar application or irrigation.
Leafy/Tuber Vegetables	5-10 L/Ha	Apply every 3 weeks to maintain growth and sizing.
Turf	1.5-3L/1000m ²	Apply as required.
Volume Rate	750mL-1L/100L	Volume Rate = Spray Volume x 0.75-1% Product (750mL - 1L of product/100L Water)

ANALYSIS

Element	W/V
Sulphur	0.18 % w/v
Zinc	1280 mg/L
Iron	1200 mg/L
Manganese	320 mg/L
Boron	240 mg/L
Copper	160 mg/L
Molybdenum	32 mg/L
Max Biuret	0.3 % w/v

CAUTION

This product may be mixed with most fertilizers and some pesticides. Always check compatibility prior to tank mixing. Refer to AgroBest's compatibility chart for further information. Keep out of reach of children. Dilute before applying to plants. Shake well before use.

SIZES

Beyond Foliar is available in four sizes:
5 Litre, 20 Litre, 200 Litre, 1000 Litre
