

AGRODEX K35

DESCRIPTION

AgroDex K35 is a 35% liquid potassium in an organic form, free of nitrate and chlorides. AgroDex K35 contains organic acids and natural plant regulators, which are immediately assimilated and translocated through the plant, where they are converted into carbohydrates to ripen and fill fruit and vegetables.

PRODUCT FEATURES

- AgroDex K35 will improve fruit and vegetable size, yields, quality, color and ripening uniformity when applied in the growing season.
- AgroDex K35 offers increased resistance to frost damage in light to medium frost, particularly at flowering and in unseasonal vegetable crops.
- AgroDex K35's fast translocation of sugars, starch and proteins is due to its unique acid and plant regulators used as a base.

APPLICATION RATES

USE	PRODUCT	APPLICATION
Mung Beans, Wheat, Oats, Barley, Turf, Soybeans, Chickpeas, Maize, Sunflowers	2-6L/Ha	As required for correction of deficiencies
Cotton	2-5L/Ha	Second square - Heavy Boll
Pome & Stone Fruits	4-6L/Ha	1 Application 2 to 4 weeks Pre-Harvest or
Vegetables, Bananas, Grapes, Citrus, Tropical Fruit, Macadamias	7-10L/Ha	
Nursery	400-600mL/100L	Water foliar or soil applied.
Turf	1-1.5L/100L	
Frost Protection for Stonefruit, Grapes, Turf etc.	8-10L/Ha	Apply afternoons and reapply 7 to 10 days.

• AgroDex K35 should be applied out of the heat of the day, i.e early morning , late afternoon.
 • Rates are a guideline only and can vary by crop, soil type, level of nutrient deficiency etc.

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis. AgroBest's Chelate at 1:1000 added to the tank first will improve chemical efficiency and compatibility.

ANALYSIS

ELEMENT	W/V
Potassium	35 %
Seafil	1.6 %
Organic & Amino Acids	10 %

OTHER APPLICATION

This product may be mixed with most fertilizers, fungicides, insecticides, and inoculants . Ensure all product labels are read carefully. Refer to the AgroBest compatibility chart for further information. Always Check for compatibility prior to tank mixing.
