

CARBO CAL

DESCRIPTION

Carbo Cal is a calcium and organic acid rich compound designed for both foliar and drip application. Despite calcium being a traditionally immobile ion, Carbo Cal is formulated with over 50 chelated organic acids, all available for rapid uptake and movement within the plant, improving structural strength, stability and quality.

Carbo Cal provides superior calcium sap levels for fruit quality and disease resistance—containing no Nitrogen or Chloride. Carbo Cal includes a number of growth hormones, which aid flowering and increase general vigor of plants, without creating the vegetative flush created by Nitrogen. Carbo Cal is an effective source of calcium for all plants.

PRODUCT FEATURES

- Carbo Cal provides readily absorbed root zone calcium when ground applied in dripper, trickle or irrigation injection.
- Foliar applications are both safe and effective in supplementing plant requirements for calcium at peak usage times.

FUNCTION

Calcium is critical for cell wall structure and strength; lending increased specific gravity; disease resistance and insect resistance. Post harvest damage can be minimized with sufficient use of calcium during the growing cycle. Shelf life will be increased with the correct use of Calcium as part of a balanced crop nutrition program.

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis. AgroBest's Agro Chelate at 1:1000 added to tank first will improve chemical efficiency and compatibility. When spraying in <700L/Ha of water, mix 1:4 Agro Chelate: Active.

APPLICATION

USE	PRODUCT	WATER/HA	APPLICATION
Apples	2.5-5L	450 L+	Foliar, 7 to 4 days apart after petal fall.
Stone Fruit & Tropical fruit	2.5-5L	650l +	Foliar, 3 to 5 applications per season depending upon deficiency or as required to improve firmness and quality
Vegetables	2.5L	350l+	
Strawberries	2-4L	600l+	
Vines	2-5L	450l +	
All crops	5-10L	100-1000L	Injection /fertigation / drip-per
Nursery	15-50ml	10L	Back Pack

* Use higher rates for ground and irrigation applications.

ANALYSIS

Element	W/V
Calcium	10 %
Organic & Amino Acids	60 %

OTHER INFORMATION

This product may be mixed with most fertilizers and pesticides. Ensure all product labels are read carefully. Refer to AgroBest's Compatibility chart for further information. In all cases a check for compatibility prior to tank mixing is essential.

Adding Agrochelate to tank mix will assist in compatibility.

SIZES

available in : 5 Litre, 20 Litre, 200 Litre, 1000 Litre
