

# AGRODEX Zn

## DESCRIPTION

AgroDex Zinc (Zn) is a naturally complex element, formulated with a range of organic and amino acids ensuring a highly available and readily assimilated low molecular weight chelation.

## PRODUCT FEATURES

- Highest quality materials.
- Advanced technology, that utilizes a complex process to combine a wide range of organic acids, resulting in enhanced foliar and root zone uptake and immediate availability throughout the plant.

## FUNCTION

Zinc has a number of vital roles in crop production plants, apart from enhanced flowering, Zinc participates in protein and carbohydrate metabolism and regulating growth enzymes. AgroDex Zn will rapidly correct and prevent zinc deficiencies in a wide variety of crops and soils.

## APPLICATION RATES

USE	PRODUCT	WATER	APPLICATION
Broadacre, Cotton	1-3L/Ha	50+L	Early flowering and seed set.
Vegetables	1-3L/Ha	250+L	As required.
Stonefruit, Pome	1-2L/Ha	250+L	First spray on leaf emergence and early flowering.
Nuts,Olives	1-2L/Ha	250+L	Apply at pre-flowering.
Sub Tropicals	1-3L/Ha	600+L	Bud development and early flush.
Grape Vines	2-4L/Ha	200+L	Minimum of two pre-flowering sprays.
Turf	200ml/100m <sup>2</sup>	100+L	As required to correct deficiencies.
Volume Rate	300ml/100L	100L	Volume Rate = Spray Volume x 0.3% product (300ml of product per 100 Ltrs of water)

## APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a soil/sap analysis.

Pre-mixing with AgroBest Spraytech Oil will improve uptake and rain fastness. Foliar applications should be avoided when ambient air temperatures exceeds 35 degrees Celsius. To improve efficiency and compatibility add AgroBest's Agro Chelate at 1:1000 to tank first. Use higher rates for ground/irrigation applications.

Rates can vary depending on crop, soil type, nutrient deficiency etc. AgroDex Zn can be soil applied using an irrigation system via trickle, dripper or mini sprinkler. AgroDex Zn can also be foliar applied via boomspray, aerial or sprinkler with sufficient water to cover leaves and fruit.

## ANALYSIS

Element	W/V
Zinc	10.0 %
Organic and Amino Acids	15.0 %

## OTHER INFORMATION

AgroDex Zn can be mixed with most liquid fertilizers, fungicides, insecticides and inoculants. Refer to AgroBest's compatibility chart for further information. In all cases a check for compatibility prior to tank mixing is essential.

## SIZES

AgroDex Zn is available in four sizes :  
5 Litre, 20 Litre, 200 Litre, 1000 Litre
