

MICRONUTRIENTS

DESCRIPTION

Micronutrients is a completely balanced, organically chelated blend of essential trace elements, which are made readily available to the plant through the foliage and fruit.

PRODUCT FEATURES

- Micronutrients contain seven essential trace elements that work together to ensure the plant's growth is not limited through lack of one or more trace elements, so production is maximised.
- Unlike synthetically chelated micronutrients that can be difficult to take up by the plant and tie up or leach out in the soil, Micronutrients supplies a wide range of elements that remain readily available.

APPLICATION RATES

USE	PRODUCT	WATER	APPLICATION
Broadacre/ Cotton	2.5-5L/Ha	40+L	Early flowering and seed set.
Vegetables	2-3L	250+L	Apply as required.
Stonefruit/ Pome	2-5L	250+L	First spray on leaf emergence and early flowering.
Nuts/Olives	1-5L	250+L	Pre-Flowering.
Sub Tropicals	2.5-6L	600+L	Bud Development and early flush.
Citrus	2-4L	1000+L	Petal fall
Turf	60ml/ 100m ²	100+L	Apply as required to correct deficiencies.
Volume Rate	500ml/ 100L	100L	Volume Rate=Spray Vol x 0.5% product (500ml of product per 100 Litres of water)

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a soil/sap analysis.

Foliar applications should be avoided when ambient air temperatures exceeds 35 degrees Celsius. To improve efficiency and compatibility add AgroBest's Agro Chelate at 1:1000 to tank first. Use higher rates for ground/irrigation applications. Rates can vary depending on crop, soil type, nutrient deficiency etc.

This product can be soil applied using an irrigation system via trickle, dripper or mini sprinkler. This product can also be foliar applied via boomspray, aerial or sprinkler with sufficient water to cover leaves and fruit.

ANALYSIS

Element	W/V
Sulphur	2.20 %
Zinc	1.60 %
Iron	1.50 %
Manganese	0.4 %
Boron	0.32 %
Copper	0.2 %

Element	Mg/L
Molybdenum	450 mg/L

OTHER INFORMATION

This product can be mixed with some fertilizers and pesticides. Ensure all product labels are read carefully. Refer to AgroBest's Compatibility Chart for further information.

SIZES

Micronutrients is available in three sizes:
5 Litre, 20 Litre, 200 Litre
