

SUPER SEEDTREAT

DESCRIPTION

Super Seedtreat is a nutritional seed coating applied pre-plant to assist seed germination, early growth and vigour, particularly in zinc and/or manganese deficient soils, therefore achieving maximum yields.

Super Seedtreat supplies essential micronutrients during germination and the critical weeks after, providing significant improvement in seedling vigour and tillering.

Super Seedtreat produces stronger healthier plants that are better able to withstand disease and seasonal stresses, consistently giving increased yields.

APPLICATION RATES

USE	PRODUCT	WATER	APPLICATION
Barley Cotton Legumes Lupins Maize Oats Peas Wheat etc	4L/T	4-8L	Pre-mix Super Seedtreat, water and/or other product making a total solution of <u>not more than</u> 8 to 12L/T of grain.
Canola & Small Seeds	8L/T		Apply direct without water

APPLICATION

When mixed with fungicides, agitate solution continuously to keep in suspension. Super Seedtreat can be readily applied by seed dressing machines.

Small quantities of cleaned seed can be coated by mixing thoroughly by hand, or in concrete mixer. Larger quintiles can be effectively coated through an auger.

ANALYSIS

Element	W/V
Zinc	9.0%
Manganese	8.5%
Sulphur	7.8%
Magnesium	4544mg/L
Nitrogen	800ml/L
Calcium	795mg/L
Boron	235mg/L
Molybdenum	20mg/L
Cobalt	550mg/L
Germination Booster	25% w/v

OTHER APPLICATION

Compatibility: This product may be mixed with most fertilizers, fungicides, insecticides & inoculants. Ensure all product labels are read carefully. Refer to AgroBest Compatibility chart for further information. In all cases a check for compatibility prior to tank mixing is highly recommended.

Storage: Store in closed, original container in a well ventilated area out of direct sunlight. Treated seed can be stored for periods up to one year. Triple rinse empty container adding rinsate to the spray tank.

Caution: Calibrate seedling equipment as treated seed may slow sowing rates.

SIZES - Super Seedtreat is available in : 5 Litres, 20 Litres
