

AGRODEX KFILL

DESCRIPTION

Agrodex K Fill is a buffered 35% liquid potassium, free of nitrate and chlorides. It contains a range of organic acids to enhance uptake and translocation and conversion of carbohydrates to ripen and fill fruit and vegetables. K Fill is buffered with a range of organic acids to a neutral pH to ensure crop safety on sensitive fruits.

AgroBest K Fill will improve fruit and vegetable size, yields, quality, colour & ripening uniformity when applied in the growing season.

PRODUCT FEATURES

- Agrodex K Fill will improve fruit and vegetable size, yields, quality, color and ripening uniformity when applied in the growing season.
- Agrodex K Fill's fast translocation of sugars, starch and proteins is due to its unique acid and plant regulators used as a base.

APPLICATION RATES

USE	PRODUCT RATE	WATER	COMMENTS
Table & Wine Grapes	6-10	250-650	2-4 applications 10 days apart Achieve good coverage without excess water. Do not apply to runoff. Do not form droplets on grapes.
Pome & Stone Fruits	6-10	450-850	1st application 4 wks pre-harvest Or
Vegetables/ Bananas/ Macadamias	7-10 5	450-1000	2 applications 10 days apart pre-harvest Additional applications if more size is required or in cool weather
Citrus/ Tropical Fruit	8-10	600-2000	
Water concentration	400 - 600 ml/100L Water Foliar or Soil Applied		

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis. AgroBest's Chelate at 1:1000 added to the tank first will improve chemical efficiency and compatibility.

ANALYSIS

ELEMENT	W/V
Potassium	35 %
Organic & Amino Acids	60 %

OTHER APPLICATION

This product may be mixed with some fertilizers, fungicides and insecticides. Ensure all product labels are read carefully.

Refer to the AgroBest compatibility chart for further information. In all cases a check for compatibility prior to tank mixing is essential.

CAUTION

Do not apply to runoff stage where droplets form on the base of fruit, as staining may occur.
