

HIGH P&K

DESCRIPTION

High uptake phosphorus & potassium. Formulated to supply high levels of phosphorus & potassium at peak demand periods such as flowering and fruit set in a wide range of crops.

PRODUCT FEATURES

- Cost Effective.
- High analysis P & K for correcting early deficiencies due to cold, water logging etc.
- High uptake, highly mobile phosphorus and potassium to maintain cell division, plant growth, flowering and fruit set at peak demand periods when the root system cannot meet the requirements for high yield.
- Can be applied with a wide range of agriculture chemicals to reduce number of spray applications.

APPLICATION RATES

USE	RATE/ HA	WATER RATION	APPLICATION
Cotton	4-6L	30-100L	Apply first flower and during boll fill to prevent premature senescence and enhance both quality and yield.
Broadacre Crops	3-4L		Apply after flowering with normal spray program.

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program recommend by an AgroBest consultant based on soil/sap analysis.

To improve efficiency and compatibility add AgroBest's Agro Chelate at 1:1000 to the tank first. Avoid foliar application when ambient air temperature exceeds 35 degrees Celsius.

ANALYSIS

ELEMENT	W/V
Phosphorus (P)	18 %
Potassium (K)	37.00 %

OTHER APPLICATION

This product may be mixed with some fertilizers and pesticides. Refer to AgroBest's compatibility chart for further information. Always check for compatibility prior to tank mixing.

SIZES

High PK is available in three sizes:

20 Litre, 200 Litre, 1000 Litre
