

**DESCRIPTION**

Agro N42 is a high analysis liquid nitrogen fertilizer (32%W/V) plus 3% unique Humic solution containing proteins, carbohydrates, free amino acids and organic acids.

**PRODUCT FEATURES**

- Agro N32 + Humic is a high analysis source offering nitrogen in several differing forms for optimum plant uptake and utilization.
- Agro N32 + Humic contains 3% GroMate, a fermented Humic Acid which stimulates root development and enhances uptake. The free amino acids and organic acids assist plant health, particularly translocation of trace elements, which aids photosynthesis and enhances cell division and elongation.

**APPLICATION RATES**

USE	PRODUCT	WATER VOLUMES	APPLICATION
Vines	3-5 L/Ha 5 - 10 ltr	Foliar Dripper	Commence 2 weeks prior to bloom or as required to promote growth and correct deficiencies.
Wheat/ Canola Sugar Cane	5-10L/Ha	Aerial—30L Groundrig in 100L+	Use for early growth. Higher rate later for protein increases Use as required to correct deficiencies.
Turf/Pasture	4-6 L/Ha 40- 60ml/100m <sup>2</sup>	250-1000L/Ha	Use as required to correct deficiencies. Water in with sufficient quantities of water.
Stonefruit/ Citrus/Pome	3-4 L/Ha 10l/ha +	Foliar 250L + Dripper	Commence two weeks after bloom or as required. Caution: Multiple applications on citrus may be damaging.
Vegetables/ Potatoes	3-4 L/Ha 5-6 L/Ha	500mL-1L in 100L Water	Commence at early growth every 7-14 days or as required.
Strawberries	2-3 L/Ha	(Less than 1%)	Commence after transplant, every 7 to 14 days before flowering.
Cotton	12-18 L/Ha		Use as required to correct deficiencies.

**APPLICATION**

Agro N32 + Humic can be applied by spray application or through fertigation systems. Foliar application by ground rig or aircraft will require sufficient water to give good coverage. Can be water run through fertigation systems ie dripper Note that the application rates are a guideline only and can vary depending on crop, soil type, level of nutrient deficiency etc.

**ANALYSIS**

Nitrogen	32 % w/v
Humic Base	3 % w/v

**OTHER APPLICATION**

Agro N32 + Humic may be mixed with most liquid fertilizers or pesticides.

Always check for compatibility prior to tank mixing.

**Keep out of reach of children.**

**Shake well before use.**

**SIZES**

Agro N32 + Humic is available in:

20 Litre, 200 Litre, 1000 Litre
