

AGRODEX SKO

DESCRIPTION

Agrodex SKO is a concentrated liquid silicon and potassium, formulated to rapidly correct and prevent silicate deficiencies in a wide variety of crops and soils. Highly concentrated and completely soluble solution ensures sufficient nutrient is supplied and plant available. Formulated with plant proteins and organic acids for improved plant response, improved cellular structure and cell turgidity.

PRODUCT FEATURES

- Silicon is recognized as an essential micronutrient and when in sufficient quantities will improve plant health.
- Shown to reduce fungal diseases, both root & foliar.
- Can improve resistance to drought and climate stresses providing resistance to mineral toxicity (salinity).
- Potassium provides additional growth and health benefits.

APPLICATION RATES

USE	PRODUCT	WATER	APPLICATION
Avocado	3-5L	1:300	Young trees at early establishment—repeat as necessary
Cotton	1-3L	1:300	Via water injection or furrow spray at planting
Carrots/Celery/Lettuce/Brassica	2-3L	1:300	Apply as a soil drench at transplant or emergence. Repeat 7-10 days later
Citrus	5-7L	1:300	Apply at early est. Treat mature at spring and autumn flush
Cucurbits	2-3L	1:300	Apply 1-2 leaf, repeat 14 days later
Onions	2-3L	1:300	Apply 1 week after emergence-repeat at 7-10 day intervals
Potatoes	2-3L	1:300	Apply 1 week after planting. Repeat at 10 day intervals
Rice/Maize/Cereals	3-5L	1:300	Apply when leaf area is sufficient
Strawberries	2-3L	1:300	Apply at planting. Repeat at 7-10 day intervals as required
Stoneruit/Pome	2.5-5L	1:300	Apply at transplant-repeat as required during establishment
Sugar Cane	3-5L	1:300	Apply at planting. Repeat at 2-3 week intervals if required
Tomatoes/Capsicum	2-3L	1:300	Apply at seedlings. Repeat 2-3 at 2-3 weeks intervals as required.
Vines	2-3L	1:300	Apply at establishment, repeat at flower truss
Turf	50ml/100m2	100+	Apply at greens construction or renovation
General production	2-3L	1:300	Apply at emergence or transplant, repeat 7-10 days as required.

Rates can vary by crop, soil type, nutrient deficiency and other factors. May be soil applied using irrigation system via trickle, dripper or mini sprinkler. This product may also be foliar applied via boomspray, aerial or sprinkler with sufficient water to cover leaves and fruit.

APPLICATION

All AgroBest nutrition products should be applied in conjunction with specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis. Avoid foliar application when ambient air temperature exceeds 35°C Always check for compatibility prior to tank mixing is required.

Keep out of reach of children.

Shake well before use

ANALYSIS

Element	W/V
Silicon (Si)	20%
Potassium (K)	13%
Organic Acids	3%

SIZES

Agrodex SKO is available in four sizes:
5 Litre, 20 Litre, 200 Litre, 1000 Litre
