

# MULTITRACE WARRIOR

## DESCRIPTION

MultiTrace Warrior has a combination of essential trace elements designed to correct and prevent trace element deficiencies in a wide range of horticultural crops. MultiTrace Warrior's high percentage of key trace elements has the ability to maintain plant health and growth, maximizing yield potential.

## PRODUCT FEATURES

- Supplies the plant with fundamental trace elements vital for healthy growth in one easy application
- Fully soluble and plant available for immediate uptake delivering nutrient response with low application rates
- Free flowing formulation making the product easy to use
- Can be applied with a wide range of agricultural chemicals, reducing applications.
- Contains nitrogen to assist in plant uptake

## APPLICATION RATES

USE	PRODUCT RATE	MIN. DILUTION	APPLICATION
Broadacre, Cotton, Grain	2-6 L/Ha	1 : 25	Apply as required to maintain crop colour and vigour. Use the low rate for low-density crops (140—160 plants / m <sup>2</sup> ) and the upper rate for high yielding crops. Apply in 50-80L water /ha using higher dilutions in temperatures over 18°C.
FRUIT TREES Avocados, Lychees, Olives	3-5 L/Ha	1 : 100	Apply pre-flowering or on recently hardened flush. Repeat as required.
Bananas	3-5 L/Ha	1 : 100	Apply during winter and if necessary repeat at 10-14 days
Mangoes/ Stone	3-5 L/Ha	1 : 100	Apply prior to flowering. Water volumes may vary from low volume to 1000L/ha if applied using air blast.
Pome	3-5 L/Ha	1 : 100	Apply during early fruit growth.
Vegetables	2-4 L/Ha	1 : 200	Apply as required to maintain trace element levels.
Vines	4 L /Ha	1 : 150	Max 2 applications may be required post-flowering up to veraison.
Nursery Plants	2-4 L/Ha	1 : 300	In hot-house situations use 800-1600 L water/ ha
Turf	200mL/100m <sup>2</sup>	1 : 10	As required to maintain turf quality and boost trace element levels.
Sugar Cane	4 - 5 L/Ha	1 : 100	FOLIAR– Apply during early growth when sufficient leaf area. BILLET SPRAY– Apply in conjunction with billet fungicide.

## APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis.

## OTHER APPLICATION

- Application rates can vary depending on crop, soil type, level of nutrient deficiency etc.
- Whilst Multitrace Warrior may be mixed with some liquid fertilizers and pesticides, a check for compatibility prior to tank mixing is essential.

## ANALYSIS

ELEMENT	W/V
Nitrogen	3.31%
Iron	1.58%
Zinc	1.0%
Magnesium	1.42%

ELEMENT	W/V
Manganese	1.34%
Boron	0.59%
Copper	0.63%
Sulphur	2.5%
Molybdenum	0.05%

## SIZES

MultiTrace Warrior is available in four sizes: 5 Litre, 20 Litre, 200 Litre, 1000 Litre
