

AGRODEX NK

DESCRIPTION

Agro NK is a highly available, rapidly absorbed liquid solution with high Nitrogen and Potassium with Phosphorus, formulated to meet mid to late season plant requirements. Agro NK will maintain growth and provide high levels of carbohydrate production to enhance fruit filling and ripening in a wide range of crops.

PRODUCT FEATURES

- The ingredients of Agro NK are of the highest purity and quality.
- The nitrogen is derived from a low biuret source.
- Two sources of potassium for high uptake and fast mobilization.
- Agro NK has very fast absorption & mobilization into the plant, with 80% absorbed within one hour of spraying under normal conditions.
- Organic acids help plant production for fruit fill

APPLICATION RATES

USE	PRODUCT RATE	WATER	APPLICATION
Broadacre	2-4 L	80 + L	Use as required to correct deficiencies and/or assist in improving development and finishing of fruit
Cotton	5-10 L	30 + L	Use as required to correct deficiencies and/or assist in improving development and finishing of fruit.
Vines	6 –8 L	400 + L	Use as at fruit set or as required to correct deficiencies
Stone fruit, Citrus, Pome	6 –8 L	450 + L	Commence at fruit set, repeat as required at approx 7 to 14 days.
Vegetables	6 –8 L	450 + L	Commence at filling, to ripening every 7 to 14 days or as required
Strawberries	3-5 L	450 + L	Commence at flowering, every 7 to 14 days or as required.
Volume Rate	800mL/100L	100 L	Volume Rate = Spray Volume x 0.5% Product. 500mL of Product/100L of water.

AP-

APPLICATION

All AgroBest nutrition products should be applied in conjunction with a specific nutrition program developed by an AgroBest consultant based on a suitable soil/sap analysis. To improve chemical efficiency and compatibility add AgroBest's Agro Chelate at 1:1000 to the tank first. Agro NK can be foliar applied via boom spray, aerial or sprinkler, ensure sufficient water to cover leaves and fruit. Agro NK can also be applied with an irrigation system via trickle, dripper or mini sprinkler. Use higher rates for ground and irrigation applications. Rates can vary depending on crop, soil type, nutrient deficiency etc.

ANALYSIS

Element	W/V
Nitrogen	16.0 %
Phosphorous	3.2 %
Potassium	15.0 %

APPLICATION

This product may be mixed with most fertilizers and some pesticides. Refer to AgroBest's compatibility chart for further information. Always check compatibility prior to tank mixing.

SIZES

AgroNk is available :
20 Litre, 200 Litre, 1000 Litre
