- Shows application of product and timing
- ○ Shows two applications of product during this growth period.

#### NOTES

- Application of Beyond Foliar can be earlier if required.
- Beyond Foliar 3-10-15 contains trace elements for a balanced foliar spray.
- Apply AgroDex CaB if required.
- Zinc may be required, if so apply just before flowering.
- Adjust plant food rates according to plant vigor and analysis results.

This program is designed to augment a soil fertility program and is offered as a guide only and dependant on growing conditions i.e. soil, climate, disease etc. Observe correct spray procedures as factors such as temperature, humidity, water rates can effect results. Always check compatibility before mixing products. Grower assumes all responsibility. Tissue analysis should be sought to monitor nutrient status.
