FINISHING (COLOUR)								○ ○

- Shows application of product and timing
- ○ Shows two applications of product during this growth period.

NOTES

- All applications are foliar except for Revitalize. If in doubt regarding soil or leaf nutrient levels use analysis to check.
- Adjust NPK rates according to plant vigor, adjust Agrodex K35 rates according to crop load.

This program is designed to augment a soil fertility program and is offered as a guide only and dependant on growing conditions i.e. soil, climate, disease etc. Observe correct spray procedures as factors such as temperature, humidity, water rates can effect results. Always check compatibility before mixing products. Grower assumes all responsibility. Tissue analysis should be sought to monitor nutrient status.
