<b>GROWTH STAGE</b>			
<b>NEW PLANTINGS</b>	○		
<b>8 WEEKS</b>		○	○
<b>14 WEEKS</b>		○	○

○ Shows application of product and timing

This program is designed to augment a soil fertility program and is offered as a guide only and dependant on growing conditions i.e. soil, climate, disease etc. Observe correct spray procedures as factors such as temperature, humidity, water rates can effect results. Always check compatibility before mixing products. Grower assumes all responsibility. Tissue analysis should be sought to monitor nutrient status.
