PRODUCT	GROMATE	KICKSTART BIO 25	TRAPEAZE	AGRODEX CAB	BEYOND FOLIAR 3-10-15	CALMATE (A)	AGRODEX SKO
APPLICATION RATES	10L/HA	10L/HA	5L/HA	2.5L/HA	10L/HA	10L/HA	300ML/HA
GROWTH STAGE							
PLANTING		✓	✓			APPLY WITH CALCIUM OR POTASSIUM NITRATE THROUGH IRRIGATION. MAXIMUM 40L/HA PER SEASON	✓
EARLY GROWTH	✓						
2 WEEKS POST HARVEST				✓	✓		
MID GROWTH TO MATURITY			✓	✓✓✓	✓✓		✓

- ✓ Shows application of product and timing
- ✓✓ Shows two applications of product during this growth period.
- ✓✓✓ Shows three applications of product during this growth period.

The AgroBest Cabbage crop program begins with our unique soil stimulant Revitalize, which contains a range of microbial agents, stimulants, bacteria & enzymes.

Nutritional recommendations include Micronutrients, Calcium and a balanced NPK.

Frequent applications of Calcium are recommended to maximise yield potential and quality. We recommend AgroDex Ca Plus Boron for high uptake foliar Calcium. The product has Boron and Nitrogen for increased efficiency. For those using Cal Nitrate we recommend CalMate, to increase uptake.

For maintenance of NPK levels we recommend Beyond Foliar 3-10-15, which has very high-grade raw materials combined with a range of micronutrients.

For ease of application AgroBest products are compatible with many insecticides, herbicides and fungicides.

AgroBest Australia recommends that regular soil and plant tissue analysis be carried out for maintenance of correct nutritional levels.

**NOTES**

- Use Extra Cal with fungicides as calcium source if cold wet conditions to assist with disease management.
- **(A) Apply with Cal & Potassium Nitrate.**

This program is designed to augment a soil fertility program and is offered as a guide only and dependent on growing conditions i.e. soil, climate, disease etc. Observe correct spray procedures as factors such as temperature, humidity, water rates can effect results. Always check compatibility before mixing products. Grower assumes all responsibility. Monitor nutrient status through tissue and soil analysis.
